EDUCATION

2021-2024
University of Twente
Technical Computer Science

2022-2023
University of Twente
Honours Programme in Entrepreneurship & Business Development

2023
Recess College
Our Future Leaders

Two weekends course aiming to teach ambitious Honours students what the true leadership is and how to create good relationships within any organization. On top of that, it showed me the importance of good listening and communication skills to ensure good cohesion and flow in the group.

2023-Present
Negotiation Project Twente
Negotiation Project Twente

2023-Present
Centre for Organisational Effectiveness
Lean Innovation Training

Amazing workshop, introducing to Lean Six Sigma process improvement strategy and its possibilities. It sparked a new interest in me in process optimalisation and Asian innovations.

WORK EXPERIENCE

2022-2023
University of Twente
"Prefect" of House System

I managed one of a group comprising around 30 first-year Technical Computer Science students, and organize events and systems to foster group cohesion. This role demand interpersonal skills, as I need to communicate effectively with students, teachers, and program management.

2022-2023
University of Twente
Minutes maker for Technical Computer Science Programme Committee

2023-Present
University of Twente
Student representative for Technical Computer Science Programme Committee

2023
University of Twente
Member of The Honours Office IT-Team

In this role, I was a member of a 3 people team responsible for creating IT systems to optimize processes within Honours programs at the University of Twente. I took charge of back-end development, using Node.js and Express, as well Sequelize and MongoDB. Additionally, I was implementing integration with Google Calendar and Microsoft Identity Platform.

2023-Present
University of Twente
Teaching assistant

Teaching Assistant for Operation Systems and Artificial Intelligence & Cyber Security courses.

2023-Present
Tapall
Business Development Manager

I have joined a new startup specializing in Smart Business Cards and NFC technology. We aim to revolutionize the sharing of digital information in person, spreading the technology in the Polish market.
